

Cloze Test 1 - 6 August 2025, Shift 1 | Held Year 2025

Exam: SSC Stenographer Grade C and D Examination 2025 | Held: 6 August 2025 | Shift 1 | Source Q.106-Q.110

Researchers in quantum computing face the twin difficulties of (1) qubit coherence and (2) error rates. While superconducting qubits have shown promise, maintaining coherence beyond microseconds remains (3)due to environmental decoherence. Furthermore, scaling up the number of qubits requires (4)control electronics that themselves introduce noise. To overcome these hurdles, teams are exploring (5)techniques such as surface codes and topological qubits.

1. A) to durable
   B) ephemeral
   C) permanent
   D) erennial
2. A) negligible
   B) prohibitive
   C) cheap
   D) low
3. A) tractable1
   B) elusive`1
   C) innate
   D) redundant
4. A) austere
   B) sophisticated
   C) rudimentary
   D) obsolete
5. A) fallacious
   B) quantum-error-correcting
   C) presumptive
   D) monochromatic

Cloze Test 2 - 10 December 2024, Shift 2 | Held Year 2024

Exam: SSC Stenographer Grade C and D Examination 2024 | Held: 10 December 2024 | Shift 2 | Source Q.76-Q.80

In its basic form, nursing can be seen as a duty, but beyond the (1) operational activities that lay the (2) of our daily work, the profession is all about grace. Helping people is a (3) calling. It is a privilege to serve my fellow human beings. Fifteen years has seen many ups and downs at the workplace, but I have enjoyed (4) the many patients who come into my care, and have prayed for the souls of those who were on the (5) of death.

A) inadvertent
   B) incessant
   C) robust
   D) transparent
2. A) pleasing
   B) placement
   C) foundation
   D) delicacy
3. A) noble
   B) diffident
   C) corrosive
   D) problematic
4. A) hosting
   B) serving
   C) deceiving
   D) preventing
5. A) leverage
   B) longevity
   C) allowance
   D) brink

Cloze Test 3 - 10 December 2024, Shift 3 | Held Year 2024

A landslip refers to the (1) of rock, soil or other materials as they descend along an inclined surface of terrain. Landslides can be triggered by several factors such as precipitation, seismic activity, volcanic eruptions or other destabilising elements affecting the slope. (2), being scholars specialising in the examination of the Earth's physical structures, occasionally classify landslides as a sort of mass wasting. Mass wasting refers to any process in which there is a downward shift of the Earth's surface resulting in erosion. Additional forms of mass wasting are rockfalls and the movement of coastal sediments known as alluvium. Landslides pose (3) risks to both, human lives and property in close proximity to densely inhabited regions. Landslides result in an approximate annual toll of 25 to 50 fatalities and generate economic losses amounting to $3.5 billion inside the United States. The (4) of landslides can be heightened by human activities, including but not (5) to agriculture and building. Several operations, such as irrigation, deforestation, excavation and water leakage, have the potential to induce slope destabilisation or weakening.

A) altercation

B) displacement

C) embezzlement

D) abduction

2. A) Archaeologists

B) Pathologists

C) Geologists

D) Botanists

3. A) minimal

B) zero

C) small

D) significant

4. A) occurrence

B) form

C) name

D) show

5. A) named

B) escaped

C) freed

D) limited

Cloze Test -4 10 December 2024, Shift 3 | Held Year 2024

Exam: SSC Stenographer Grade C and D Examination 2024 | Held: 10 December 2024 | Shift 3 | Source Q.81-Q.85

The concept of (1) intelligence has intrigued psychologists for decades. It refers to the ability to understand and manage one’s emotions, as well as (2) the emotions of others. Emotional intelligence plays a crucial role in personal and professional success. Individuals with high emotional intelligence tend to excel in (3) situations, showing empathy and effective communication. They can also navigate through (4) with resilience and adaptability. Developing emotional intelligence involves self-awareness, self- regulation, motivation, empathy, and social skills. Cultivating these skills can lead to improved relationships and better (5) outcomes.

A) computer

B) artificial

C) emotional

D) media

2. . A) amplify

B) ignore

C) manage

D) overlook

3. A) theoretical

B) complication

C) social

D) solitary

4. A) witness

B) routine

C) harness

D) challenges

5. A) self-centred

B) interpersonal

C) financial

D) academic

Cloze Test - 5 December 2024, Shift 1 | Held Year 2024

Exam: SSC Stenographer Grade C and D Examination 2024 | Held: 11 December 2024 | Shift 1 | Source Q.71-Q.75

It's (1) to have a conversation about health and wellness without talking about mental health. In the United States, nearly one in five adults has a mental illness or mental health condition. That's nearly 52 million people. However, mental health isn't just about having or not having a mental illness. Our wellbeing is (2) by all aspects of our lives and that, in turn, affects how we experience life, work and time with our loved ones. Now, the conversation is more (3) than ever. In 2021, the prevalent feeling of the year was languishing. Research found that more than 55% of workers weren't mentally ill, but they weren't thriving either. As the pandemic has brought physical health at the centre stage in an unprecedented way, it's time (4) look at the other major components of wellbeing. The conversation around mental health awareness has never been as public, as prevalent, or as important. After all, building (5) is a critical ingredient to learning how to care for your mental health.

1. A) advisable

B) impossible

C) easy

D) beneficial

2. A) effected

B) affected

C) different

D) indifferent

3. A) unnecessary

B) critical

C) difficult

D) irrelevant

4. A) for

B) about

C) of

D) to

5. A) dreams

B) awareness

C) hospitals

D) family
